

**Introduction..... 1**  
**Acknowledgments..... 5**  
**Part I: The Darwin Information Typing Architecture ..... 7**  
**Part II: DITA Topics..... 13**  
    Section A: Understanding the Core DITA Information Types..... 19  
        Lesson 1: Concept Information Type..... 23  
            Structure elements .....29  
            Concept elements .....31  
            Concept review questions .....33  
        Lesson 2: Task Information Type..... 34  
            Task elements .....42  
            Task review questions .....48  
        Lesson 3: Reference Information Type ..... 49  
            Reference elements .....56  
            Reference review questions .....58  
    Section B: Understanding DITA Elements..... 59  
        Lesson 4: Block Elements ..... 61  
            Block element definitions .....63  
            Block element review questions .....71  
        Lesson 5: Phrase Elements ..... 72  
            Phrase elements definitions .....78  
            Domain elements .....80  
            Typographic elements .....86  
            Phrase element review questions .....87  
        Lesson 6: Related links ..... 88  
            Related-link elements .....93  
            Related link review questions .....95  
    Section C: Understanding Topic Metadata ..... 96  
        Lesson 7: Prolog Metadata ..... 97  
            Prolog metadata elements .....102  
            Metadata review questions .....105  
**Part III: DITA Maps ..... 107**  
    Section D: Understanding DITA Map Basics..... 110  
        Lesson 8: DITA Map Structure..... 112  
            Map elements .....122  
            Map element review questions .....125  
    Section E: Understanding DITA Map Attributes..... 126  
        Lesson 9: Format Attribute ..... 128  
            Format attribute review questions .....132  
        Lesson 10: Scope Attribute..... 133  
            Scope attribute review questions .....140  
        Lesson 11: Type Attribute ..... 141

## ii Introduction to DITA: A User Guide to the Darwin Information Typing Architecture

Type attribute review questions .....	145
Lesson 12: Processing Attributes.....	146
Processing attribute review questions .....	151
Section F: Understanding Map Linking .....	152
Lesson 13: Collection-type Attribute .....	155
Collection-type review questions .....	163
Lesson 14: Linking Attribute .....	164
Linking attribute review questions .....	169
Section G: Understanding Relationship Tables .....	170
Lesson 15: Relationship Tables .....	171
Relationship table elements .....	181
Relationship table review questions .....	182
<b>Part IV: Content Reuse.....</b>	<b>183</b>
Section H: Understanding DITA Content Reuse .....	185
Lesson 16: Conref Attribute .....	188
Conref attribute review questions .....	196
<b>Part V: Specialization.....</b>	<b>197</b>
Section I: Understanding DITA Specialization.....	199
Lesson 17: Glossary Specialization.....	204
Specialization review questions .....	221
<b>Part VI: Processing.....</b>	<b>223</b>
Section J: Understanding the DITA Open Toolkit.....	225
Lesson 18: DITA Open Toolkit.....	226
DITA Open Toolkit review questions .....	235
Lesson 19: Build Files.....	236
Modifying Ant build files .....	240
Ant review questions .....	253
Section K: Understanding Conditional Processing.....	254
Lesson 20: Conditional Processing File .....	255
Conditional processing review questions .....	268
<b>Appendix A: Comstar overview .....</b>	<b>269</b>
Comstar overview code .....	270
Quick Guide to Basic Telephone Use.....	272
Quick guide code .....	273
About hold.....	275
About hold code.....	275
Holding a call code .....	276
About transfer.....	277
About transfer code .....	277
Transferring a call code .....	278
About forward .....	281
About forward code.....	281

Table of Contents iii

Forwarding a call code .....	283
About conference calls.....	284
About conference call code.....	285
Placing a call code.....	286
Leaving a conference call temporarily code.....	287
Reentering a conference call code .....	288
Consulting privately on the conference call code.....	289
Reentering a call with all people code .....	290
About using the telephone's features.....	291
About using the telephone's features code.....	291
Warnings .....	292
Warnings code.....	293
Glossary .....	294
Glossary code.....	295
Comstar map code.....	299
<b>Appendix B: DITA element glossary .....</b>	<b>303</b>
